

SING OUT 2

The Rhythm Of The Ocean

(Origin of song: England, language: English)

Verse 1

At the bottom, the bottom of the ocean
Lived a fish as big as can be
She was so big she couldn't really swim far
But she could sing as sweet as honey

Chorus

And they were rocking, rocking
Rocking in the ocean
Grooving, grooving
Under the waves
It was the rhythm, rhythm
Caused the commotion
Under the deep, deep blue sea

Verse 2

Whilst she was humming one day beneath the seaweed
There was a sound from behind a rock
It was a seahorse practicing his guiro
She went around gave his door a knock

Chorus

Verse 3

I've got some friends, they're really good musicians
An octopus who is wizard at bass
On lead guitar I know a funky starfish
We'll have a band practice down at my place

Chorus

Verse 4

Now there's a band at the bottom of the ocean
They play at night and they practice all day
And when you hear the waves upon the seashore
Well that's the sound of them jamming away
