

# Early Years Development Matters Overview

This overview is designed to support your planning, delivery and assessment of the EYFS Development Matters with the children you work with. The areas that are covered by each song will depend on how you use the song and the activities you deliver with your children.

You will find activities and suggestions in the Songs and Activities section of the Sing Songo Practitioners App and Webpage, and more ideas and examples of delivery in the Training Videos section.

Overall the Sing & Learn programme is designed for you to use flexibly to meet the needs of your children and setting - we know that as practitioners you are best placed to implement a creative and responsive approach to learning and development in early years, Sing & Learn is here to help.

Boom Boom Boom	CL	PD	PSED			UW	EAD
